

The background is a dark blue gradient with various data visualization icons and elements. A hand is visible on the left, holding a tablet. Overlaid on the background are several icons: a laptop, a smartphone, a classical building, a Wi-Fi symbol, and a bar chart with a '78%' label. There are also two large upward-pointing arrows and a line graph with data points. The text 'Deep-dive into Tableau' is in a large, white, sans-serif font, and 'Part 9' is in a slightly smaller, white, sans-serif font below it.

# Deep-dive into Tableau

## Part 9

Ashwini Hambarde

# How dashboard performance can be improved ?

1. Choose appropriate connection to data source
2. Limit the data points in marks card
3. Use limited filters
4. Use optimized calculation
5. Use tableau's query optimization
6. Choose appropriate dashboard layout
7. Clean up workbook

Thank You
